

# Say Hello to ... Again

## Mobility Matters™

Named for the Latin word meaning *to go, advance, or progress*, **eo™** was developed to meet the ever-changing needs of today's highly mobile business professionals.

Built with productivity and security in mind, **eo™ v7110e** features WiFi and Bluetooth® wireless connectivity, enhanced touch screen input with handwriting recognition, comes standard with a 6-cell extended life battery and runs Microsoft® Windows Vista® Business (includes SP1) — all powered by the new 1.2 GHz VIA C7®-M ULV processor with VIA PadLock Security Engine and the new VX700 integrated chipset.

Utilizing **eo™**, mobile professionals can wirelessly access key systems, run full enterprise applications, read and write e-mail and view multimedia presentations; both in the office and on the road.

Whether on the floor as a handheld Point of Sale terminal, or in the factory as a industrial touch screen controller, **eo™** is the ultra-versatile, ultra-mobile computing solution that enables you to connect, communicate and control your business at anytime, from anywhere.
